

NEW TECH CERTIFICATIONS PREP STUDENTS FOR TESLA GENERAL INDUSTRIAL, MANUFACTURING AND INDUSTRIAL ELECTRONICS

Western Nevada College is offering new certificates of achievement in industrial electronics and general industrial technology, as well as certification preparation in industrial electronics and manufacturing.

The job skill certificates and certifications prepare students for industry credentials, supporting Carson City and Carson Valley industries. Students may qualify for financial assistance through JOIN.

CONSTRUCTION PROGRAM MEANS BUSINESS

WNC's Bachelor of Technology Degree program in Construction Management has expanded its focus on the business side of construction. Instructor Bob Ford has updated the program curriculum and implemented an active advisory board, while adding estimating software and surveying equipment.

This fall, high school seniors in Dayton and Virginia City can enroll in JumpStart Construction, in which they earn 18 units of construction credits prior to graduation.
